

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

The Board of Education recognizes that, in special circumstances, District employees may need to use private vehicles for school purposes. In particular, the Building Principal may authorize the transportation of students in private vehicles for the following reasons:

1. to transport a student or students to a hospital or other medical facility, in the event of a medical emergency; and/or
2. to transport a student or students to District-sponsored events when regular district transportation is unavailable.

The district assumes no liability unless the employee has authorization for such transportation.

District administrators are advised to exercise caution in authorizing transportation of students in private vehicles.
